

DATA BREACH POLICY

Saintfield Road Presbyterian Church

Saintfield Road Presbyterian Church is committed to complying with data protection legislation and will take appropriate measures against unauthorised or unlawful processing and against accidental loss or destruction of or damage to personal data:

If, despite the measures that we have put in place to protect personal data, a data security breach occurs, it is important to manage and respond to it effectively. A data security breach covers more than the misappropriation of data and may occur through incidents, such as:

- Loss or theft of data or equipment.
- People gaining inappropriate access.
- A deliberate attack on systems.
- Equipment failure.
- Human error.
- Catastrophic events, (for example, fire or flood).
- Malicious acts such as hacking, viruses or deception.

If such an incident occurs it is imperative that we act immediately. The following steps will be taken:

- A. One of the following, the Minister, the Data Protection Lead (David Thomson) or the Clerk of Session (Dr Alistair McCracken) (the “Security Breach Team”) will be informed immediately;
- B. An investigation will be undertaken to determine:
 - i. The nature and cause of the breach; and
 - ii. The extent and nature of harm that has or could arise from the breach.

If there is no risk of harm then no further action is required (for example if papers are temporarily lost due to being incorrectly filed but are then promptly found and no disclosure has occurred or harm likely to occur then no further action is required).

If there is considered to be a risk of harm then the following steps must be undertaken:

1. Information Commissioner’s Office, must be informed within 72 hours. If we do not have all of the information by then a report should be made within the 72 hours on the basis of what is known while investigations continue.
2. If the breach is likely to result in a high risk of adversely affecting individuals’ rights and freedoms, we must also inform those individuals without undue delay. Examples of this could include where there is a high risk of reputational damage, embarrassment or putting the individual’s property at risk.
3. If necessary a number of third parties will be informed which may include:
 - a. PCI

- b. the Organisation's insurers;
 - c. the police;
 - d. the Congregation's/Presbytery's [delete as appropriate] solicitors.
4. Following notification we will continue to liaise and cooperate with the ICO.
 5. All reasonable steps to mitigate the damage arising from the breach will be taken.

A record of all data protection breaches will be maintained regardless of whether or not notification is required. Detailed records of the investigation will be maintained as well.

Following a breach if necessary it must be considered whether any of the below is required:

- Disciplinary action;
- Legal action;
- Internal review of security procedures.

A number of precedent documents have been prepared which may be of use. Please note that, where possible, legal advice should always be sought in the case of a data breach prior to sending these correspondences.
